

Maverick Doors

Built for the Canadian Climate

In 2005, Madero partnered with NanYa Plastics, a world leader in the manufacturing of fiberglass, working with Canadian R & D Corp. to develop a maintenance free door and frame system, which meets the climate conditions found within the Canadian market.

MAVERICK

Smooth White Fiberglass Slab
Wood Frame

Finish with Ease

Smooth white fiberglass doors are supplied in their natural pre-pigmented warm white finish. Though painting is not required to achieve a full 25 year limited warranty, doors can easily be painted to the color of your choosing.

To achieve a realistic, rich appearance. Refer to page 25 for factory finish information.

Durability & Performance

Fiberglass skins are resistant to dents, dings, splintering and corrosion. The rigid structure of our fiberglass doors prevent bowing and warping in extreme temperatures.

Exceptional Security

The full length steel reinforced wood lock block offers a high level of security, while allowing a range of hardware mounting options.

Completely Waterproof

Waterproof composite stiles and rails are sealed and finished to protect all edges of the door from moisture penetration, which can harm the inner insulation and cause rotting.

Energy Efficiency

Filled with an insulating core of 100% CFC free polyurethane foam, providing an excellent R rating, while bonding the two door skins together for additional strength
