

# Workhorse Fiberglass Doors

## Built for the Canadian Climate

In 2005, Madero partnered with NanYa Plastics, a world leader in the manufacturing of fiberglass, working with Canadian R & D Corp. to develop a maintenance free door and frame system, which meets the climate conditions found within the Canadian market.

25 YEAR

Double Rabbeted Wood Frame

## WORKHORSE FIBERCOMP

Smooth White Fiberglass Slab  
Double Rabbeted Composite Frame

### Finish with Ease

Smooth white fiberglass doors are supplied in their natural pre-pigmented warm white finish. Though painting is not required to achieve a full 25 year limited warranty, doors can easily be painted to the color of your choosing.

To achieve a realistic, rich appearance. Refer to page 25 for factory finish information.

### Durability & Performance

Fiberglass skins are resistant to dents, dings, splintering and corrosion. The rigid structure of our fiberglass doors prevent bowing and warping in extreme temperatures.

### Exceptional Security

The full length steel reinforced wood lock block offers a high level of security, while allowing a range of hardware mounting options.

### Completely Waterproof

Waterproof composite stiles and rails are sealed and finished to protect all edges of the door from moisture penetration, which can harm the inner insulation and cause rotting.

### Energy Efficiency

Filled with an insulating core of 100% CFC free polyurethane foam, providing an excellent R rating, while bonding the two door skins together for additional strength
